

# Paediatric Emergency Care

**Do you experience anxiety with paediatric presentations?**

**Do you want to improve the emergency management of infants and children in remote or isolated practice settings?**

**Are you expected to be a competent Paediatric Life Support provider?**

**Then the CRANaplus Paediatric Emergency Care (PEC) course is for you**

The CRANaplus Paediatric Emergency Care (PEC) course is an interactive, practical course that covers aspects of the emergency management of children in the remote and isolated setting. The course aims to increase confidence with paediatric presentations and focuses on team leadership, communication and critical thinking in paediatric emergency situations.

This course is at an advanced level.
